Freelancer

Creation of test cases. Functional Testing. Cross Browser Testing. Usability Testing. Smoke testing. Regression Testing. Android and Web application.

Studying at the university Performed the project "Creating a desktop utility for image editing" in Java. Used technologies: Java 8, Swing, Maven, Git.
(<https://github.com/IrinaEvsei/Course-work-1>)

In the course of the summer academic practice at the university, I was faced with the task of implementing with the help of the Java language services that would allow us to integrate into the NoSQL database Cassandra, to obtain the information we needed using queries. Used technologies: Java 8, Maven, Spring Boot, Cassandra Database, Spring data Cassandra.

During the practice, I also got to know Thrift and the basics of working with him on

Education

Incomplete higher

2019

Belarusian State University

механико-математический факультет, математика и информационные технологии

Key skills

Languages

Belarusian — native

English — I can attend an interview

Russian — I am a fluent speaker

Further information
